

'SAVE THE ROAR'

Tiger Trust, after much success of other popular programmes has now launched **'Save the Roar'!!!**

An initiative to mobilize involvement and participation by School Children to Protect and Conserve the Indian Wildlife!

'Save the Roar' is a commitment towards achieving the sustainability of human and animal life on earth! Tiger Trust believes in the theory of **'Catch them young'**! It envisions not only to increase awareness and participation by school children and youth but to get these children to seal a life-long commitment towards protecting the life in the wild! To bring these children from all backgrounds, from those in the villages, to ones in the city and international students, together, **to save the majestic tiger and other dying roars!!**

'Save the Roar' will bring children from different cultures, age and place together on one common platform, for one common cause to **'Save the Roar'!** To create a Mystical Fusion of the spirit of young minds and hearts and end the days of 'couch wildlife enthusiasts'! Create opportunities to bring them into the lap of nature and allowing them to engage in in-depth investigation with nature and draw from such experiences!

Come debate, discuss, write, paint and launch a campaign

Let us take you to the National Parks and Sanctuaries and Tiger Reserves.....

Meet local communities

Meet forest officials

Do your bit to 'Save the Roar'!

Tiger Trust believes in the power of youth, of students as young activists, conservationists and ambassadors of change!! We invite all to support this campaign!!
